DETAILED ACTION

1. This action is responsive to amendment filed //2005.
2. The disposition of the claims is as follows: claims 1-15 and 31-44 are pending in the application. Claims 1 and 31 are independent claims. Claims 16-30 have been cancelled.

Claim Rejections - 35 USC § 102 and 103

3. In view of Applicant's arguments and review of cited references, 102 and 103 rejections are withdrawn.

Allowable Subject Matter

4. Claims 1-15 and 31-44 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Applicant's independent claims 1 and 31 stand novel over the related prior art. For instance, the related art of Cunniff (US 5,945,992), does make use of data structure information that is stored as to the position of each data object, its bounding geometry, and its opaque radius.

However does not receive data corresponding to a plurality of objects to be rendered, wherein the data includes a first and second data values for each object

using the first and second data values for each object to assign each object a first non-positional rendering attribute and a second non-positional rendering attribute

using the first and second non-positional rendering attributes to select a third non-positional rendering attribute

Art Unit: 2628

and rendering a scene including at least a subset of the plurality of objects, wherein said rendering is performed according to the first, second, and third non-positional rendering attributes, and wherein the scene is displayable on a display device.

In contrast, Cunniff does not, inter alia, provide for using the first and second data values for each object to assign each object a first non-positional rendering attribute and a second non-positional rendering attribute.

Therefore as claimed by the combined elements of independent claims 1 and 31, the cited references and prior art of record lack separately and in combination the elements of amended claims. Claims 2-15 and 32-44 depend from allowable independent claims 1 and 31, respectively, and therefore are also allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
